Safe Storage Saves Lives

Drug Misuse

- The #1 source for teen drug misuse is the family medicine cabinet
- 90% of people who have a substance use disorder started in their teens
- 80% of heroin users started with prescribed opioids

Pediatric Poisoning

- 57% of pediatric fatalities come from prescription drugs and supplements
- Every 8 minutes a child goes to the ER
- Every 1 hour a child is hospitalized
- 4 school busses of children per day go to the ER
